

# Meet the Apprentice

## Sofie Kenworthy

Department: Reception

Apprenticeship: Business Admin

**Tell me about yourself?** I like shopping spending time with my boyfriend, family and friends and going out for food. I also love to travel it is a real ambition of mine to travel all over the world and eat in amazing places! I have so far travelled in Europe, America and Asia.

**What made you seek an apprenticeship?** I wanted to gain experience within a professional business as well as hopefully gaining a full-time permanent job by the end of it. I liked the prospects this apprenticeship could offer as it helps me increase my confidence levels as well as many skills.

**What do you like about working for Jacksons?** I like how something is different every day and how there is so many aspects to my job role, such as working within marketing, aiding events and helping clients solve their queries by processing calls through to the correct person.

**What is your greatest achievement at Jacksons?** Being offered my apprenticeship.

**What do you hope to get out of your apprenticeship?** I hope to gain life-skills, people-skills and good experience as well as a permanent job by the end which would be great.

**What advice would you give to potential apprentices about joining the world of work?** I would say go for it as it can provide you with skills and experience you may not have ever been offered.

**Would you recommend the apprentice route to others?** I would recommend it as you can make a living by being paid and learn key life and work skills at the same time.

**If you could travel anywhere in the world where would you go?** I would travel to my favourite place in the world, Las Vegas, I have been once and would dream to visit again or even live there one day. It never gets boring or repetitive and is the most amazing place. Everything it offers appeals to me.

**What is your favourite colour and why?** My favourite colour is grey as I have a keen eye for interior design and designed my dressing room this colour it looks great.

**If you had to choose your favourite meal what would it be?** My favourite meal would probably be truffle, mushroom and chicken creamy spaghetti with cheese. I ate this in an amazing restaurant in America and it was lovely.

**What luxury could you not live without?** I probably couldn't live without my phone as it is a way I connect with the people who live far from me such as my friends and my boyfriend when he is living away from home. I also use my phone to take photos of amazing memories I have such as holidays and celebrations.
